

XMReality 6 with Vuzix

To install and run XMReality 6 for Vuzix, follow these steps:

1. Download the Vuzix-adapted version of XMReality 6 from here:
<https://xmreality.com/download/xmreality-6-for-smart-glasses>
2. Download and install Vuzix Viewer on your computer from here:
<https://www.vuzix.com/support/product-support/vuzix-view>
3. On the Vuzix, go to Settings -> Connected Devices and make sure that Allow ADB is enabled.
4. Once Vuzix Viewer is installed and ADB enabled, connect the Vuzix to your PC using the attached cable.
5. Drag the APK file you downloaded in step 1 into the Vuzix viewer window, which will then install XMReality 6 on your Vuzix device. The program will then be installed and can be found in the standard menu
6. To log in with your XMReality account on Vuzix, the easiest way is to use QR login code. This code is generated by logging into <https://portal.xmreality.com> on your computer or phone with your account and clicking the "Create QR Login code" on the left-hand side. With that code open on your computer/phone, enter XMReality 6 on your RealWear device and click "Scan QR login code" and turn the camera to the screen with the QR code open

These steps are based on <https://www.vuzix.com/Support/FAQ/Detail/186>, if something is not working or you want to install in another way, please look at the page above provided by Vuzix.

Navigating on Vuzix and in XMReality:

Your Vuzix device have 3 physical buttons and a touchpad.

The buttons can be used both with short and long press (approx. one second)

Short press:

Front button: Forward navigation

Center button: Back navigation

Back button: Select

Long press:

Front: Right-click

Center: Exit to home menu

Back: Back one step

See next page for picture showing the buttons and touchpad instructions.

Touchpad

By swiping sideways on the touchpad, you can switch between Recent, Contacts and More (see picture below of XMReality view).

By swiping up/down on the touchpad, you can navigate within the contact list.
